

CB Control Cross-Line Drill

billiards.colostate.edu

Remember:

1. Use 90/30/trisect reference lines.
2. Take advantage of the natural angle where possible.
3. Try 1-rail and 2-rail paths where possible to see which is most reliable.
4. You can use drag to get to 1 if necessary.
5. Be methodical with “clock” spin for balls 1 through 4.
