

Recognized Instructor Course

Final Quiz

Name: _____ Date: _____

For each question mark all answers that apply.

1. Intro: Which of the following are requirements to advance from Recognized to Certified?
 - A) Sufficient evaluations with the PBI A
 - B) Serving on a Certified Instructor's sub-committee.
 - C) Passing Certified Instructor Course
 - D) One year or more at Recognized level.
 - E) Employment a Billiard room.

2. Intro: How many levels of Instructors are identified by the PBI A
 - A) One
 - B) Two
 - C) Three
 - D) Four
 - E) Five

3. Video: The main objectives of using a video camera include:
 - A) To give students visual feedback for evaluation
 - B) To demonstrate aiming systems.
 - C) To highlight problems and causes in cueing technique and mechanics.
 - D) To highlight actual mechanics used by students.

4. Video: In using a video camera, you should:
 - A) Always use the same camera angle for all students.
 - B) Vary position of video depending on shot setup.
 - C) Point out all the flaws found using the video camera.

5. Mechanics: Main objectives of the stance include:
 - A) Consistent alignment on each shot.
 - B) Minimizing body movement during the stroke.
 - C) Ensuring that most of the player's weight is well forward.
 - D) Putting the head in the correct place.

6. Mechanics: The main objectives of the grip include:
 - A) Increasing the role of the hand for extra stroke.
 - B) Minimizing tightness to encourage a smooth stroke.
 - C) Aligning the wrist with the forearm for consistency.
 - D) Permitting a slip stroke for those shots which require it.

Recognized Instructor Course

7. Mechanics: The bridge hand should:
- A) Allow lateral movement during the stroke to vary the contact point.
 - B) Have a gap between thumb and index finger for better alignment.
 - C) Always be formed in the same way.
 - D) Maintain as solid contact with the table as possible.
8. Mechanics: A good stroke should:
- A) Have a consistent pendulum swing from the shoulder.
 - B) Follow through 9 inches or more.
 - C) Have the same number of preliminary strokes.
 - D) Swing back quickly with smooth acceleration.
 - E) Have a straight follow through for side spin shots.
9. Basics: Which of the following increases "throw" the most?
- A) Cleaning the balls
 - B) Finger prints
 - C) Worn bed cloth
 - D) Chalk marks
 - E) Increasing cut angle between the balls
10. Basics: In using side spin (English), which of the following are true?
- A) Running English slows the speed of the cue ball during cushion contact.
 - B) Reverse English reduces the speed of the cue ball during cushion contact.
 - C) Striking a cue ball with English does not induce squirt.
 - D) Squirt can be compensated for with the "aim-and-pivot" technique.
 - E) A ball hitting a rail with no spin at all comes off the rail at the same angle and speed and with no spin.
11. Progressive Practice: The main objectives of Progressive Practice include:
- A) Improving your draw shots
 - B) Improving your follow shots
 - C) Testing intermediate and advanced players only
 - D) Allowing precise pocketing percentage predictions
 - E) Improving speed control
12. Progressive Practice: In progressive practice drills, which of the following are true?
- A) Drawing back to start point but no more than two diamonds is easier than drawing back past the starting point.
 - B) Using a progress marker is necessary.
 - C) The student should be encouraged to make his own drills.
 - D) Bank shots are not well suited to Progressive Practice.
